NOTE: Following your participation in this course Law Society Finuas Skillnet will issue you with a digital CPD certificate using blockchain-based technology. With blockchain, you can verify with others - such as the Law Society CPD Scheme section - the authenticity of your certificate in a matter of seconds. This initiative is the result of collaboration between Law Society Finuas Skillnet and VerifyEd. In summary, you will be provided with a complimentary secure, virtual library where you can save your future digital CPD certificates. This allows Law Society Finuas Skillnet to better serve you, our member, by providing an encrypted platform to issue CPD certificates with cryptographic proof that they were issued by Law Society Finuas Skillnet. [Allow 14 days for your certificate to be issued].

### **Aim and Objectives**

Data security and data breaches are important to solicitors and their firms. Practitioners owe significant confidentiality obligations to their clients, which include taking measures to keep data secure. Practitioners may need to advise clients on data security issues or advise individuals who are affected by a data security incident.

This is a practical session, with examples, which aims to give guidance to practitioners in order to assist them in keeping data secure and dealing with a data breach. As well as giving guidance on how to advise a client. The speaker is a leading expert in this field and will share his knowledge and expertise with delegates.

## Topics to be covered include

- ) Legislative provisions under the GDPR and the Data Protection Act 2018 relevant to data security and data breaches
- ) Data Protection Commissioner's guidelines
- ) Appointing service providers
- ) How to respond to a data breach
- ) Personal data breach notifications and considerations
  - o Notification to the Data Protection Commissioner
  - o Notification to the data subject
- ) Post reporting, including
  - o Potential DPC enquiries
  - o Potential investigations
  - o Potential data subject enquiries
  - o Ongoing controller investigation and resolution
- ) Clients and their data security and data breaches
  - o potential division of responsibility in medium to large client organisations
  - o potential division of responsibility in smaller client organisations
- ) Coronavirus and data security
