Re: Professional Visits – Mountjoy Prison

Dear Sirs,

I am aware that some of your members have been experiencing difficulties accessing their clients for legal consultations.

Unfortunately Level Five restrictions have resulted in the withdrawal of face to face access to your members and we have struggled with our technological solutions to this problem.

We are currently working with our IT department to implement a reliable and robust telecommunications system to support legal consultations.

Please convey my sincere apologies to your members for the delays they are currently experiencing. We expect to have a solution in place this week.

Kind regards

Eddie Mullins
